HVME FOODS INDIA PRIVATE LIMITED (HVME)

CRAFTED WITH PURPOSE

HVME Foods India Pvt. Ltd. is a premium B2B supplier of healthy snacks and gourmet gifting solutions - built around flavored dry fruits, nuts, berries, seeds, and curated mixes. Founded in Bengaluru in 2023, we began with one idea: to elevate everyday snacking into something bold, clean, and flavorful.

Built by women entrepreneurs and born in the post-pandemic wellness wave, HVME (pronounced Have Me) evolved from a festive gifting experiment to becoming one of India's leading providers of modern, health-forward snacking - now seen across corporate vending machines, hotels, airport lounges, and luxury hampers.

We specialize not only in dry fruits, but in all formats of flavorful, nutritious snacking - including chocolate-coated, spicy, salty, savory, and functional mixes. As we grow, we're also innovating in dehydrated fruits and vegetable chips, layered with seasoning for diverse palettes.

We source the finest ingredients directly from farms across the world, bringing purity, taste, and innovation into every product.

OUR BRAND STORY

The idea of HVME (Have Me) was born at the intersection of health, flavor, and emotion. During the post- COVID shift toward mindful eating, we noticed a change - people didn't just want healthy snacks, they wanted meaningful, tasty, and presentable experiences.

What began as a festive gifting box during Diwali turned into a movement of its own.

At our core, we asked: Why should healthy food feel boring? And Why should gifting feel impersonal?

So, we reimagined how nuts, berries, and seeds are presented - coating them in chocolate, glazing them in spice, dressing them in herbs. And then we added soul - with personalized gifting powered by Vibe QR technology, where senders can share audio, video, or photo messages through every box.

Today, HVME isn't just a brand. It's a moment that brings people closer
- through taste, health, and thoughtful design.
